PT Cladtek Bi-Metal Manufacturing receives Object Vital National Status

PT Cladtek Bi-Metal Manufacturing (PT CBM), a wholly owned Indonesian subsidiary of Cladtek Group, was appointed as a National Vital Object Industrial Zone (OVNI) by the Indonesian state authorities of Riau, effective February 14th 2019.

Being granted OVNI status benefits PT CBM through direct support from regional and state authorities; this conducive support covers, 1) Surveillance, communication and coordination with internal and external parties including security and safety, 2) Appropriate intervention actions to ensure that PT CBM can carry out its production without external or internal obstacles, and/or demonstrations from inside or outside the facility, 3) Mobilization of resources to protect everyone who is in the company such as owners, customers and employees, and secure overall facilities and equipment of PT CBM from intimidation and threats.

PT CBM management is committed to all its customers, and specifically the relationship and trust which underpins mutual business. The effort and subsequent achievement of OVNI status is a key component of Cladtek's commitment to maintain reliability and provide assurance that industrial or externally influenced business interruptions do not occur.
